A screenshot of a system monitoring dashboard. At the top, there's a navigation bar with icons for Preferences, Notifications, and Tools. Below that is a row of category icons: Profile, System, Processors (selected), Memory, Disks, Network, and Processes. The main content area is titled 'Overview' and shows system information for two processors. It includes a 'View as' dropdown set to 'Classic graph' and a 'Period' selector set to '5 Min'. The processor details include: Total: 2 processors, Cache: 4.00 MB, Model: Intel Core2 Duo T7300 @, Speed: 2.00 GHz, Bus speed: 800.00 MHz, and Temperature: 109 F. There are also logos for Intel and 64 BITS. On the left, a circular gauge shows 'Processor 1' at 7% usage. On the right, a line graph shows activity over the last 5 minutes.

CHECK - UP

Un servizio per verificare:

- ⊕ **La struttura della rete e dei suoi componenti attivi e passivi**
- ⊕ **Le caratteristiche hardware del Server, le componenti Software, le patch di sicurezza, i processi di backup e restore dei dati**
- ⊕ **La configurazione hardware e software dei PC**
- ⊕ **I sistemi di protezione perimetrale (Firewall)**
- ⊕ **La protezione degli endpoint interni (Antivirus)**
